Before a child is registered as missing, adequate investigations need to be carried out to locate the child/family. Below you will find key areas needed to be checked and indicators to help you carry these out. If you have an Education Welfare Officer attached to your setting they will pick this work up from the 11th school day of absence.

All contact numbers including emergency contacts have been called. This includes email addresses where possible.

School Teacher to discuss with missing pupil's friend's/ family members possible whereabouts if appropriate.

After 10 school days of unauthorised absence with whereabouts unknown the School must send letter b.

After the above investigations have been completed and the pupil/s remains absent then refer to EWO where applicable.

S2S Guidance

The “Lost” Pupil Database

When a pupil transfers from a school in your area and the destination school is not known, the school should create a CTF file using XXX for the destination LA and XXXX as the destination school number, and upload it. Each file should hold information on only one pupil.

The regulation is that pupils can be removed from the register if they have been continuously absent for a period of 20 days or more. The school should only do this after consulting its local Education Welfare Service, as the school and Local Authority are required to make reasonable enquiries to locate pupils before removing them from the register. This should be Regulation 8 of The Education (Pupil Registration) Regulations 2006

If a pupil arrives in a school and the previous school is not known, the school should ask the LA to search the database for a matching record using gender, names or former names and date of birth. School users cannot search the lost pupil database.

When a pupil moves to a non-maintained school or one outside England and Wales then the school should use MMMMMMM as the destination code. This enables the CTF to be stored securely and to be available if the pupil returns to a maintained school. Exceptions are Non Maintained Special Schools, Service Children’s Schools or other schools which can be identified via Edubase (<http://www.edubase.gov.uk>) and which are using S2S.

If the destination school is not using S2S then a CTF transfer file uploaded onto S2S to go to that school will be rejected; in that case the school should use MMMMMMM for the destination. Each such file should hold information on only one pupil. Files for XXXXXXX and MMMMMMM are loaded onto S2S in the same way as files for schools – the only difference is that these files can only have the details of one pupil to enable individual pupil information to be retrieved.
