Community Primary School

Governor Profile

DERBY CITY COUNCIL

Who am I?

My name is David Powell and I am one of your parent governors. I live with my partner Francesca and my four year old daughter Amber-Rose, who is currently in her second year at LCPS nursery. I have lived in Wilmorton for over seven years and know the area and community really well. I have worked as a teacher since 2005, working in different schools and teaching in a variety of year groups. I am currently a year 5/6 teacher in Nottinghamshire, where I am the PE/ Eco co-ordinator and helping children prepare for SAT's.

What are my interests?

sports, football and Derby County. I like to play football with my local teams and enjoy an odd game of badminton. I read every day and often have my laptop nearby! I have an allotment where I like to grow vegetables for the plate and pumpkins for Halloween!

Life is always hectic but enjoyable for myself and my family. We love going on spontaneous family days out at weekends and in the school holidays. Our latest hobby is camping and we enjoy travelling around the UK, especially down to Newquay. I am passionate about most

Where do I come from?

I was born in Derby and went to primary, secondary, college and university in my home town. I have worked in China for six months before returning back to Derby. Most of my family work in the sporting world and I have one older brother.

How did I become involved in the school?

My first major involvement with the school was when my daughter attended nursery and I was impressed with LCPS new facilities, teaching staff and the local community.

When I am about?

With my work commitments in Nottingham, I don't get a lot of opportunities to visit LCPS during their daily routine. However, I do enjoy taking my daughter to school every other Monday morning and being part of the school environment when I can. I especially enjoy attending special events and celebrations. I am always happy to be approached by parents/carers who would like to have a chat and help LCPS reach for the stars.
